PROFESSIONAL SUMMARY

Information Technology graduate with hands-on internship experience developing and maintaining web-based systems for university administration. Skilled in HTML, CSS, JavaScript, PHP, MySQL, database management, system testing, troubleshooting, and technical documentation. Experienced in implementing system enhancements and working with user requirements to improve workflows and system functionality. Detail-oriented, adaptable, and quick to learn new tools, with a strong interest in web development and data-driven systems.

KEY SKILLS

Web Development | PHP | MySQL | JavaScript | HTML/CSS | Database Management | System Testing | Troubleshooting | Technical Documentation | Workflow Improvement | Data Handling | Problem Solving

TECH PROFICIENCY

Development: HTML | CSS | JavaScript | PHP | MySQL

Databases: Database Management

Testing & Support: System Testing | Troubleshooting | Bug Fixing

AI Tools: ChatGPT | Google Gemini | Claude | Grok | Blackbox AI

Productivity: Google Workspace (Docs, Sheets, Slides, Drive, Gmail) | Microsoft Office (Word, Excel, PowerPoint)

Communication: Google Meet | Zoom | Discord | Microsoft Teams | Slack

EDUCATION

Bachelor of Science in Information Technology

Laguna State Polytechnic University – Sta. Cruz Campus | Santa Cruz, Laguna, Philippines | 2026

Relevant Coursework: Database Management Systems | Systems Analysis and Design | Information Management | Human-Computer Interaction

RELEVANT EXPERIENCE

Web Developer Intern (On-the-Job Training)

University of the Philippines Los Baños – Graduate School | February 2026 – May 2026

- Developed and maintained a web-based administration system using HTML, CSS, JavaScript, PHP, and MySQL.
- Implemented system enhancements, fixed bugs, and tested functionality to improve system performance and reliability.
- Prepared technical documentation and collaborated with supervisors to translate user requirements into system enhancements.

Academic Web Development Projects

Laguna State Polytechnic University | 2022 – 2026

- Developed responsive web applications and database-driven systems for academic requirements.
- Collaborated with team members throughout planning, development, testing, and documentation phases.
- Applied AI productivity tools to assist with research, debugging, documentation, and code refinement.
